Re: RCRA Permit Class 1 Modification  
Emergency Coordinator List Changes in Contingency Plan  
EPA ID # NCD 047 368 642

Dear Mr. Johnson:

Your request for a permit modification received on July 9, 2003 to change the emergency coordinator information in the contingency plan has been processed as a class one (1) permit modification under 40 CFR 270.42 as adopted in 15A NCAC 13A .0113. To comply with 40 CFR 270.42 you must notify all persons on the enclosed mailing list with the exception of the State and EPA who have already been notified. Please replace the page G-2 of the Application with the enclosed revised pages G-2a and G-2b.

Approval of this modification is therefore granted and has been incorporated into your permit. If you have any questions, please contact Karim Pathan at (919) 733-2178 extension 228.

Sincerely,

A handwritten signature in cursive script, appearing to read 'Jill B. Pafford', is written over the word 'Sincerely,'.

facilities but applies to emergency situations in any operating facility on the plant site. As much as possible, the Contingency Plan described in the following sections has been condensed to present the organizational response if an emergency situation would develop in the hazardous waste facilities. If an emergency situation developed in another part of the plant, the basic response mechanisms would be the same but some personnel would be different - e.g. the Emergency Director would be the shift supervisor of the area involved.

## **G-2 Emergency Directors (Regulatory Emergency Coordinator)**

Pursuant to 40 CFR 264.52(d), this Contingency Plan “must list names, addresses, and phone numbers (office and home) of all persons qualified to act as emergency coordinator, and this list must be kept up to date. Where more than one person is listed, one must be named as primary emergency coordinator and others must be listed in the order in which they will assume responsibility as alternates.”

The DuPont – Fayetteville Works site is comprised of four shifts of workers, and at any given time one of those shifts is present at the site. This is true 24-hours per day, and includes weekends, holidays, and work outages. The site’s Emergency Directors are defined as the two Nafion® Division first-line supervisors and the one Butacite® first-line supervisor for each of the four separate shifts. The primary Emergency Director is defined as the Nafion® Products Area first-line supervisor for each of the four separate shifts, and would direct the response to an emergency. However, if the emergency was in either the Nafion® Monomers Area or the Butacite® manufacturing area, then the first-line supervisor of the affected area would become the Emergency Director.

The Emergency Director is responsible for dealing with the emergency situation on the scene. If additional resources are needed, the off-duty management will be called in. However, the Emergency Director is in full charge of the emergency unless relieved and has complete authority to commit all necessary resources on the plant site to implement the contingency plan and call for assistance from off-plant emergency agencies. He/she has the authority of the Plant Manager throughout an emergency situation.

To comply with the requirement of 40 CFR 264.52(d), the following table lists the twelve (12) Emergency Directors of the DuPont – Fayetteville Works site:

<b>DuPont – Fayetteville Works Emergency Directors</b>			
<b>Name</b>	<b>Address</b>	<b>Office Phone</b>	<b>Home Phone</b>
Otis Evans	22828 NC Highway 87 W Fayetteville, NC 28306-7332	910-678-1653	910-863-4662
Ken McMillan (See Note 1)	22828 NC Highway 87 W Fayetteville, NC 28306-7332	910-678-1616	910-486-4524
Andy Hood	22828 NC Highway 87 W Fayetteville, NC 28306-7332	910-678-1180	910-863-4251
Boyce Lennon	22828 NC Highway 87 W Fayetteville, NC 28306-7332	910-678-1682	910-863-3072
Rufus McQueen	22828 NC Highway 87 W Fayetteville, NC 28306-7332	910-678-1695	910-433-4688
Harvey Inman (See Note 1)	22828 NC Highway 87 W Fayetteville, NC 28306-7332	910-678-1504	910-856-1256
